RE: Scott River Stream System Annual Report, 10/01/2014 — 09/30/2015  
Section F – Annual Court Report

---

The Scott River Stream System does not have a water master who has been submitting the annual report to the Court.

Because of this, Siskiyou County has completed this annual report.

The information that has been presented is the result of a private well monitoring program in the entirety of the Scott Valley.

The County is moving forward with GSA formation and GSP development.

It is anticipated that as a result of these efforts, that additional SGMA reporting information in the Scott River adjudicated area will be available.

---
