To: Mr. Timothy Ross  
California Department of Water Resources  
Adjudicated Basins Reporting System  
Sustainable Groundwater Management Act (SGMA)

Job No. 500-LAS

From: Richard Slade, Watermaster  
Upper Los Angeles River Area (ULARA)

Re: SGMA Adjudicated Basin Submission for ULARA

Mr. Ross:

Publication of the Annual ULARA Watermaster report for the 2020-21 Water Year has been delayed for various reasons and was not published in May 2022. The report has not yet been approved for publication by the ULARA Administrative Committee, and therefore has not yet been submitted to the Los Angeles County Superior Court. Because of this delay, the report has not been uploaded to the SGMA website by the April 1, 2023 due date for SGMA reporting.

Once the 2020-21 Water Year Annual Report is accepted by the ULARA Administrative Committee for publication, and the Report is filed with the Court, the final document will be uploaded to the SGMA website. In the interim, preliminary "draft" data have been uploaded to the SGMA website, as available.

Thank you,

Richard C. Slade  
ULARA Watermaster
