

**Notification of Public Hearing to Approve 2022 Update to
Alternative Groundwater Sustainability Plan**

Notice is hereby given that the Board of Directors of Zone 7 Water Agency (Zone 7) will hold a public hearing on December 16, 2021, at 7:00 p.m., to receive comments from the public regarding the 2022 Update to the Alternative Groundwater Sustainability Plan for the Livermore Valley Groundwater Basin, which lies beneath the cities of Livermore, Pleasanton, Dublin, and a portion of San Ramon.

Zone 7 is a public agency that supplies treated and untreated water for residents in the Tri-Valley area of eastern Alameda County. The state law known as the Sustainable Groundwater Management Act (SGMA) requires that Groundwater Sustainability Agencies with Alternative Groundwater Sustainability Plans update the plans every five years. Zone 7's original Alternative Plan for the Livermore Basin was submitted in 2016 and approved by the Department of Water Resources in 2019.

Public comments will be received during the public hearing on December 16, 2021. Zone 7's Board of Directors may approve the 2022 Update to the Alternative GSP immediately after the public hearing closes. For more information about Zone 7 or to learn about the Alternative GSP, visit www.zone7water.com.
