Re: Sacred Lands File and Native American Contacts List Request

To Whom It May Concern:

On behalf of the soon to be formed South Fork Kings Groundwater Sustainability Agency (SFKGSA), enclosed please find a request for a Sacred Lands File Search and Native American Contacts List.

The Sustainable Groundwater Management Act of 2014 (SGMA) requires local public agencies with water supply, water management and/ or land use planning authorities within a groundwater basin or subbasin to manage and regulate the underlying groundwater in a sustainable manner, and that these agencies work together to form Groundwater Sustainability Agencies (GSAs) by June 30, 2017. The SFKGSA, which is forming as a California Joint Powers Agency, intends to file notification with the State of California to act as the GSA for a portion of Kings County.

If you have any questions or require additional information, please do not hesitate to contact Eric Osterling, Manager of Water Resources, at eosterling@krcd.org or (559) 237-5567 ext. 135.

Sincerely,

Randy Shilling
Deputy General Manager,
Business Operations

RS/EO/dmr

Project Description:

The Sustainable Groundwater Management Act of 2014 (SGMA) requires local public agencies with water supply, water management and/or land use planning authorities within a groundwater basin or subbasin to manage and regulate the underlying groundwater in a sustainable manner, and that these agencies work together to form Groundwater Sustainability Agencies (GSAs) by June 30, 2017. The South Fork Kings GSA, a California Joint Powers Agency, is planned to be formed for this purpose and will be responsible for carrying out sustainable groundwater management strategies within a portion of the Department of Water Resources Bulletin 118 Tulare Lake Subbasin (project location map attached).
