Re: Formation of the West Placer Groundwater Sustainability Agency

Dear Mr. Storey,

Please be advised that the City of Rocklin supports the formation of the West Placer Sustainability Agency and Placer County acting as the administrative lead for the WPSGSA.

It is acknowledged that The Sustainable Groundwater Management Act (SGMA) of 2014 requires the formation of a Groundwater Sustainability Agency (SGA) by June 30, 2017. It is further acknowledged that the proposed West Placer GSA (WPGSA) covers a portion of the North American Subbasin and will be formed by the County of Placer, the Cities of Lincoln and Roseville, Placer County Water Agency, and Nevada Irrigation District. Since only a small portion of the serve area is within the City of Rocklin's boundary, we support Placer County as the administrative lead for the WPGSA and to represent the City's interest in developing the GSP. The City of Rocklin will monitor said activities and reserves the right to receive and share information, analyses and comments throughout the process. We extend our appreciation to the WPGSA for their support and leadership in this matter.

Sincerely,

Ricky A. Horst
City Manager
