RE: Colusa County GSA Previous Election Notification and Rescission

Dear Mr. Nordberg;

In accordance with Water Code §10723 et seq., the County of Colusa, the City of Williams, Colusa County Water District, Reclamation District 108, Glenn Colusa Irrigation District, and Princeton Codora Glenn and Provident Irrigation Districts all have previously provided notice to the California Department of Water Resources (DWR) of their intent to become a Groundwater Sustainability Agency (GSA) for the portions of the Colusa Subbasin underlying their respective service areas. Subsequent to the submittal of these GSA notifications, these agencies (as well as other eligible agencies within the County) have decided to become members of the **Colusa Groundwater Authority (CGA)**. The CGA is a Joint Powers Authority that will serve as a single GSA for the Colusa County portion of the Colusa subbasin and portions of the West Butte subbasin.

Each of the JPA member agencies has adopted jurisdictional resolutions approving the CGA JPA formation agreement. Within these resolutions is a standard provision that: (1) upon execution of the JPA agreement by all of the member agencies; and (2) upon submittal to DWR of the GSA notification from the CGA, that the County of Colusa, the City of Williams, Colusa County Water District, and Reclamation District 108 have agreed to rescind their previous GSA elections in favor of the CGA becoming the single GSA for the Colusa County portion of the Colusa subbasin and portions of the West Butte subbasin.

With respect to the Princeton-Codora-Glenn and Provident Irrigation Districts, these agencies' jurisdictions span both Colusa and Glenn Counties. Because of this bi-county jurisdiction, once both the CGA and the Glenn Groundwater Authority (GGA) have submitted their GSA notification to DWR, the previous GSA elections from the Princeton-Codora-Glenn and Provident Irrigation Districts will be considered to have been rescinded. With respect to the Glenn Colusa Irrigation District (GCID), their jurisdiction spans both Colusa and Glenn Counties, and both the Colusa and Corning subbasins. It is my understanding that GCID is working with you on the details of rescinding their previous notice in the simplest way possible.

Once the above-mentioned notices have been rescinded by DWR, all overlaps in the Colusa County portion of the Colusa and West Butte subbasins will be removed.

Thank you for your assistance with this process, and please do not hesitate to contact me with any questions.

Sincerely,

Mary Fahey
Water Resources Manager, County of Colusa
