Re: Overlap Resolution - Central Kings GSA
Kings Subbasin

Dear Mr. Nordberg:

The Central Kings Groundwater Sustainability Agency ("Central Kings GSA") and the South Kings Groundwater Sustainability Agency ("South Kings GSA") have reached a resolution with regard to GSA boundaries and desire to revise their maps so that there are no remaining overlapped areas. Please find attached a revised PDF map and revised GIS files showing the Central Kings GSA (in the Kings Subbasin) modifying its boundaries to exclude the cities of Fowler, Kingsburg, Parlier and Sanger, and the Del Rey Community Services District. The South Kings GSA should be modifying its maps as well to reduce the area that it is covering to include coverage over only the area within the city limits of Fowler, Kingsburg, Parlier and Sanger and within the boundaries of the Del Rey Community Services District. As such, the intent is that there is no longer an overlap within the Kings Subbasin amongst the Central Kings GSA and the South Kings GSA. Please let either Phil Desatoff or myself know if this is not the case.

Very truly yours,

Lauren D. Layne
