Re: Overlap Resolution between Tri-County Water
Authority and Alpaugh GSA
Tule Subbasin

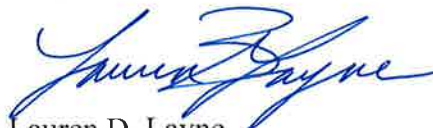

Dear Mr. Nordberg:

The Tri-County Water Authority (the "TCWA") and the Alpaugh Groundwater Sustainability Agency ("Alpaugh GSA") have reached a resolution with regard to their current overlap of management areas within the Tule Subbasin (DWR Subbasin 5-22.13). More specifically, the areas shown in pink in the attached Exhibits A-1 and A-2 shall be uncovered by the Alpaugh GSA and covered exclusively by TCWA. The remainder of the overlapped area in the Alpaugh GSA filing shall be uncovered by TCWA and covered exclusively by Alpaugh GSA. As such, there should no longer be an overlap of any property between TCWA and Alpaugh GSA, allowing both GSAs to become exclusive over their respective portions of the Tule Subbasin as modified by this letter and the attached maps.

As this resolution was reached late this afternoon, our engineers are unable to submit revised maps today. However, both Alpaugh GSA and TCWA agree to submit revised maps by the end of next week, July 7, 2017. Regardless, the intent of TCWA and Alpaugh GSA is to resolve the overlap issue so that there are no longer any overlapped areas in the Tule Subbasin.

Please do not hesitate contact either Matthew Hurley or David Kahn if you have any additional questions.

Very truly yours,

Lauren D. Layne
