

EXHIBIT D

INTERESTED PARTIES

This list of interested parties is submitted by the City of Coalinga (City) pursuant to Water Code Section 10723.2. At this time the Pleasant Valley Subbasin is ranked low. When a GSP is developed, the list below may be amended. The City will consider all beneficial uses and users of groundwater within the City limits, as well as others responsible for developing GSPs within the Subbasin and, as appropriate, within adjacent subbasins that are hydro-geologically connected. The City will solicit feedback and engage with interested parties during GSP development. Currently, the following categories of water users have been identified as potentially interested parties:

A. Holders of overlying groundwater rights, including:

1. Agricultural users

There are no overlying agricultural landowners that rely on groundwater for irrigation within the City limits. There are no overlying rights holders extracting groundwater from within the City limits.

2. Domestic users

There are no domestic wells within the City limits. All domestic and municipal uses are supplied by imported water from the City's CVP contract with the United States Bureau of Reclamations.

B. Municipal well operators

The Coalinga Huron Parks and Recreation District operates one or more wells in the Pleasant Valley Subbasin to irrigate parks located within the City.

C. Public water systems

The City operates a public water system within the Pleasant Valley Subbasin. The City uses surface water (and not groundwater) to provide municipal water to the residents located within the City limits. All domestic and municipal use in the City is supplied by the City from imported water under the City's contract with the United States Bureau of Reclamation.

The Pleasant Valley State Prison operated by the California Department of Corrections and Rehabilitation gets their water that is treated and delivered from the City of Coalinga.

D. Local land use planning agencies

The City and Fresno County are the local planning agencies with authority covering the Pleasant Valley Subbasin.

E. Environmental users of groundwater

There are no environmental users of groundwater within the City limits.

F. Surface water users

There is no hydrologic connection between surface and groundwater flows.

Several ephemeral creeks pass near to the jurisdictional boundaries of the City including Los Gatos Creek, Warthan Creek, and Jacalitos Creek.

The City has a surface water contract with the USBR for the City's public water system described in Section C above which is delivered to the City's treatment plant via the Coalinga Canal located east of the City. The City pays a delivery fee to the USBR for the surface water.

G. The federal government including but not limited to the military and managers of federal lands.

There are no federal lands within the City limits.

H. California Native American Tribes

There are no California Native American Tribes or tribal lands within the City limits.

I. Disadvantaged communities

The City is considered a disadvantaged community and is located within the Pleasant Valley Subbasin.

J. Entities listed in Water Code section 10927 that are monitoring and reporting groundwater elevations in all or a part of a groundwater Basin managed by the GSA.

The City understands that Pleasant Valley Water District will be the CASGEM monitoring entity for the Pleasant Valley Subbasin.
