

LIST OF INTERESTED PARTIES (PURSUANT TO SECTION 10723.2)

California Water Code section 10723.8 requires that a Groundwater Sustainability Agency notification include a list of interested parties developed pursuant to Section 10723.2 and an explanation of how their interests will be considered in the development and operation of the groundwater sustainability agency and the development and implementation of the agency's sustainability plan.

Section 10732.2 requires that the groundwater sustainability agency consider the interests of all beneficial uses and users of groundwater, as well as those responsible for implementing groundwater sustainability plans. A listing of these interests is provided below. The interested parties are listed in bold, italicized typeface.

References to the "County" in this document mean the County of Fresno, including in its capacity as a GSA.

A. Holders of Overlying Groundwater Rights Including:

1. Agricultural Users

The agricultural users within the County rely on groundwater for irrigation.

2. Domestic Well Users

There are domestic wells within the County area located at residences of landowners and landowner employees.

B. Municipal Well Operators

Although outside of the County jurisdictional boundaries, the City of Coalinga operates one or more municipal wells in the Pleasant Valley Subbasin to irrigate the parks located within the city limits.

C. Public Water Systems

Although outside the County jurisdictional boundaries, there is a public water system within the Pleasant Valley Subbasin operated by the City of Coalinga. The City of Coalinga uses surface water (and not groundwater) to provide municipal water to the residents located within the city limits.

The Pleasant Valley State Prison operated by the California Department of Corrections and Rehabilitation gets their water that is treated and delivered from the City of Coalinga.

D. Local Land Use Planning Agencies

The City of Coalinga is the local planning agency with authority within the city limits.

E. Environmental Users of Groundwater

There are no environmental users of groundwater within the subbasin.

F. Surface Water Users

There is no hydrologic connection between surface and groundwater flows.

The Pleasant Valley Subbasin has several ephemeral creeks within its jurisdictional boundaries including Los Gatos Creek, Warthan Creek, Zapato Chino Creek, and Jacalitos Creek.

The City of Coalinga has a surface water contract with the U.S. Bureau of Reclamation ("USBR") for the City's public water system described in Section C above which is delivered to the City's treatment plant via the Coalinga Canal located east of Pleasant Valley Water District. The City of Coalinga pays a delivery fee to the USBR for the surface water.

G. Federal Government

The County is not aware of any federal government lands within the GSA area. The federal government through the USBR delivers surface water to the City of Coalinga.

The County will coordinate its efforts with the USBR and engage, and if appropriate consult with, other appropriate federal agencies where federal government interests are involved.

H. California Native American Tribes

At this time, the County is not aware of any Native American Tribal interests in the GSA area. The County will continue to investigate any possible Native American Tribal interests and will coordinate its activities with any identified interests.

I. Disadvantaged Communities

The nearest disadvantaged community is the City of Coalinga. The County will coordinate its efforts with the City of Coalinga.

J. Entities listed in Water Code section 10927 that are monitoring and reporting groundwater elevations in all or a part of a groundwater basin to be managed by the County in its capacity as a GSA

The Pleasant Valley Water District will be the CASGEM monitoring entity for the subbasin. The County will continue to coordinate its groundwater monitoring activities with the PVWD and will support PVWD in its role as the CASGEM entity monitoring groundwater elevations in the subbasin.

K. Other Interests of All Beneficial Uses and Users of Groundwater

At this time, the County is not aware of any interests of beneficial uses and users of groundwater other than those listed above. The County will consider any other interests as it is made aware of those interests.
