October 21, 2019

The Marina Coast Water District Groundwater Sustainability Agency (MCWD GSA) is posting an update to GSA filing documents in order to resolve an overlap in the Monterey Subbasin (DWR 3-004.10) between the MCWD GSA and the Salinas Valley Basin Groundwater Sustainability Agency (SVBGSA) as required by the Sustainable Groundwater Management Act (SGMA).

The MCWD GSA's boundaries have been changed to reflect MCWD's recent service area annexation, certified by the Local Agency Formation Commission of Monterey County on July 2, 2019. The overlap is resolved in this case through a change of MCWD GSA and SVBGSA shapefiles that recognizes (1) the MCWD GSA's jurisdictional boundaries existing within the Monterey Subbasin and (2) jurisdictional boundaries of federal land not subject to SGMA. These changes are not material changes to the MCWD GSA's posted GSA notice.

Two agreements have also been executed that define the responsibilities of each GSA in preparation of GSP's in the Monterey Subbasin and the adjacent 180/400 Foot Aquifer Subbasin.

All shapefiles and agreements have been uploaded for review by DWR staff in an effort to resolve the existing overlap.

Consultations may be arranged or questions answered by contacting Keith Van Der Maaten GSA General Manager at kvandermaaten@mcwd.org or by phone at 831-883-5910.
