

## **Interested Parties**

This list of interested parties is submitted by the Pleasant Valley Water District (PVWD) pursuant to Water Code Section 10723.2. At this time the Pleasant Valley Subbasin is ranked low. When a GSP is developed, the list below may be amended. PVWD will consider all beneficial uses and users of groundwater within the Pleasant Valley Subbasin, as well as others responsible for developing GSPs within the Subbasin and, as appropriate, within adjacent subbasins that are hydro-geologically connected. PVWD will solicit feedback and engage with interested parties during GSP development. Currently, the following have been identified as interested parties:

### **A. Holders of overlying groundwater rights, including:**

#### **1. Agriculture users**

PVWD includes agriculture landowners that rely on groundwater for irrigation. The District's board of directors consists of landowners in the District, and the District has mailed information to all landowners regarding the groundwater situation. Therefore, relationships with agricultural water users already exist.

#### **2. Domestic users**

There are domestic wells within PVWD's service area located at residences of landowners and landowner employees.

### **B. Municipal well operators**

Although outside the PVWD jurisdictional boundaries, the City of Coalinga operates one or more municipal wells in the Pleasant Valley Subbasin to irrigate the parks located within the City.

### **C. Public water systems**

Although outside the PVWD jurisdictional boundaries, there is a public water system within the Pleasant Valley Subbasin operated by the City of Coalinga. The City of Coalinga uses surface water (and not groundwater) to provide municipal water to the residents located within the city limits.

The Pleasant Valley State Prison operated by the California Department of Corrections and Rehabilitation gets their water that is treated and delivered from the City of Coalinga.

D. Local land use planning agencies

Fresno County is the local planning agency with authority covering the Pleasant Valley Subbasin.

E. Environmental users of groundwater

There are no environmental users of groundwater within the Pleasant Valley Subbasin.

F. Surface water users

There is no hydrologic connection between surface and groundwater flows.

Pleasant Valley Subbasin has several ephemeral creeks within its jurisdictional boundaries including Los Gatos Creek, Warthan Creek, Zapato Chino Creek, and Jacalitos Creek.

The City of Coalinga has a surface water contract with the USBR for the City's public water system described in Section C above which is delivered to the City's treatment plant via the Coalinga Canal located east of PVWD. The City of Coalinga pays a delivery fee to the USBR for the surface water.

G. The federal government including but not limited to the military and managers of federal lands.

There is a small portion of land owned by the Bureau of Land Management located on the east side of the Pleasant Valley Subbasin.

H. California Native American Tribes

There are no California Native American Tribes within Pleasant Valley Subbasin.

I. Disadvantaged communities

The City of Coalinga is considered a disadvantaged community and is located within the Pleasant Valley Subbasin.

J. Entities listed in Water Code section 10927 that are monitoring and reporting groundwater elevations in all or a part of a groundwater Basin managed by the GSA.

Pleasant Valley Water District will be the CASGEM monitoring entity for the Pleasant Valley Subbasin.
