Subject: Sacramento County Groundwater Sustainability Agency Changes In The South American Subbasin Resulting From Resolving Overlapping Groundwater Sustainability Agency Requests

Dear Mr. Norberg,

Sacramento County Groundwater Sustainability Agency (GSA) is submitting new County GSA boundaries to the Department of Water Resources (DWR) Sustainable Groundwater Management Act (SGMA) GSA portal for the South American Subbasin (SASb) documenting the County Board of Supervisors June 16, 2020 resolution (Item 65). The resolution approved a Memorandum of Understanding (MOU) between the County, Northern Delta, Omoichumne-Hartnell Water District (OHWD), Sacramento Central Groundwater Authority (SCGA), and Sloughhouse Resources Conservation District (SRCD) GSAs in the SASb. The MOU established a process for resolving the overlapping GSA formation notices between OHWD, SCGA, and SRCD areas in the subbasin. The County GSA boundary change reduces the exclusive area of the Sacramento County GSA to an area of approximately 1500 acres not managed by any other GSA and is considered a non-material change because groundwater management in the subbasin remains the same.

The last step in resolving overlapping GSA formation notices in the South American Subbasin involves our contractor, GEI Consultants Inc., submitting a new shapefile to the GSA SGMA portal for the exclusive Sacramento County GSA area. The attached figure shows the GSAs in the subbasin. If you have any questions please contact me at schmitzk@saccounty.net, 916-874-4681 or Linda Dorn, dornl@saccounty.net, 916-874-1085.

Sincerely,

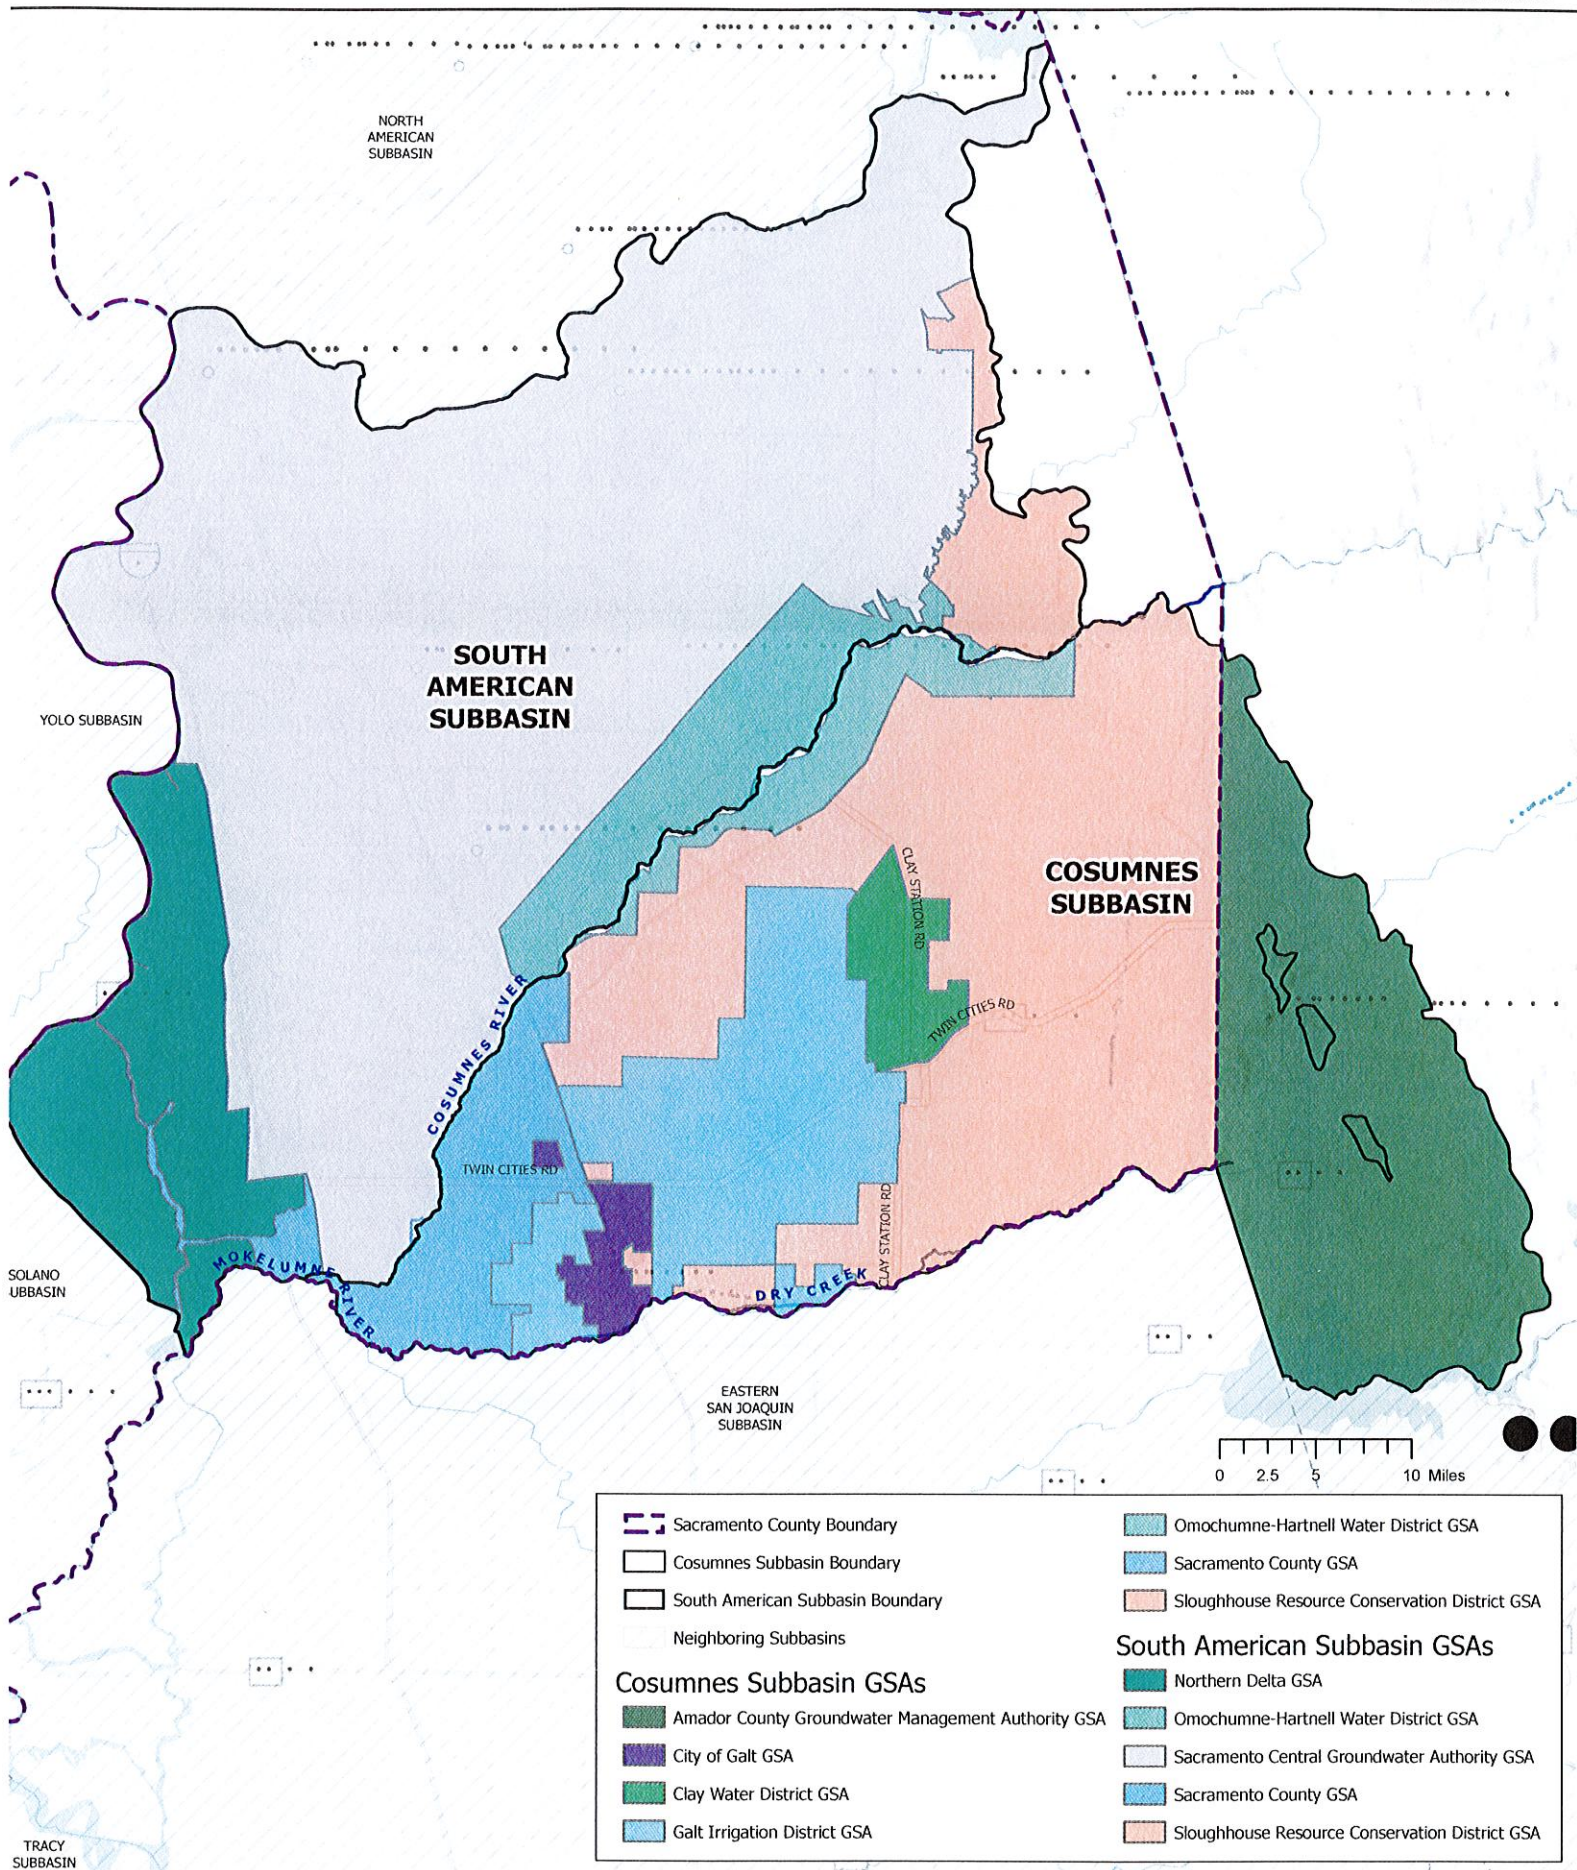

Kerry Schmitz
Sacramento County GSA

Attachment: South American Subbasin GSAs
