

Fillmore Historical Museum Artifact Identified by Intern

Continued from page 1

Leon Hammond, October, 1864.” Dr. Hammond was a Union Army surgeon. This may have come from the Cedar Creek Battle. During the Civil War little could be done under the drastic circumstances to save a leg or an arm. Not amputating could lead to gangrene and death.

Dr. Parker Hubert practiced dentistry in Fillmore in the 1920s and 1930s. We did an article about him a few months back highlighting his pastime as an amateur film maker and rider. His son, Robert Hubert, also gave us a set of “Gold Bugs” he had made from dental gold.

We have found two other things in the Museum which we have no clue who donated them. Unfortunately, after the 1994 earthquake many of our items were damaged or destroyed and records were

also damaged or destroyed.

One item was found rolled up on top of some cabinets. It is blue with gold lettering and just says “Fillmore Band”. Since there is no reference to the Fillmore Unified High School we believe it was for the Fillmore City bands organized by Frank Erskine and Clarence Arrasmith. If anyone has photos of the early Festival parades that might show this banner, we would love to see them.

The other banner has a more national connection. It simply says Fisk and Brooks. Clinton Fisk and John Anderson Brooks made up the Prohibition Party ticket in the 1888 presidential election. Fillmore had a very strong temperance league led by Mrs. Hattie King (<https://www.fillmorehistoricalmuseum.org/hattie-king-and-the->

Pictured above is a blue banner with gold lettering that reads, “Fillmore Band”. Since the museum has no reference to the Fillmore Unified High School, they believe it was for the Fillmore City bands organized by Frank Erskine and Clarence Arrasmith. Photo credit Fillmore Historical Museum.

wctu). Since Fillmore had just been laid out in 1888,

the banner was probably used elsewhere.

FWSC Donates \$1,000 to AYSO

Continued from page 1

donation.

FWSC is hard at work for the community and partnering up with AYSO to help ensure their motto of EVERYONE PLAYS-- and AYSO Epics Everyone Plays in our Community is a part of what they stand for.

Fillmore AYSO 242 is celebrating its 45th anniversary this year. They are hard at work gearing up for another fantastic year of soccer with some extra special celebrations along the way. FWSC looks forward to celebrating with them.

If you have any desire to make a difference in a child’s life, especially when it comes to the community and youth sports, here are a few things you may consider: Volunteer as a Coach, Volunteer

as a Referee, consider sponsoring a child or a team, sponsor a team’s banner yourself or as a business, and lastly, any new or used sporting equipment would gladly be accepted (cleats, shin guards, soccer balls, cones).

You can follow both organizations on social media if you are interested in the above. Both organizations would gladly accept equipment to be used towards a child this year (or feel free to contact anyone pictured in the photo).

Good job, AYSO 242! 45 years serving your Fillmore community. Good job, FWSC, on showing up for the youth by supporting scholarship efforts. See you on the soccer field! Let’s have a great season!

City of Fillmore Applies for \$1.4 Million Grant to Combat Homelessness with Strategic Partnerships

June 14, 2024 – The City of Fillmore, in collaboration with SPIRIT of Santa Paula, Ventura County Continuum of Care, Peoples Self Help Housing, Many Mansions, and CalTrans, is excited to announce an application for \$1.4 million in funding through the Encampment Resolution Funding Program (ERF-3-R). This initiative is sponsored by the California Interagency Council on Homelessness.

This vital funding will

bolster a comprehensive effort to provide both immediate and long-term housing solutions for individuals experiencing homelessness in Fillmore and Ventura County.

- Housing Solutions:
- SPIRIT of Santa Paula: Shelter and interim housing
 - Peoples Self Help Housing: 13 units of permanent housing
 - Many Mansions: 7 units of permanent housing

These partnerships will

address the pressing needs of our community’s most vulnerable populations by offering secure and stable housing environments. The blend of emergency shelter and permanent housing units is designed to transition individuals from temporary to permanent housing, ensuring a sustainable resolution to homelessness.

“We are dedicated to addressing the homelessness crisis in

our community through holistic and compassionate methods,” said David W. Rowlands, City Manager, City of Fillmore. “Our collaboration with committed partners and the support from the Encampment Resolution Funding Program will profoundly impact the lives of many individuals and families.”

The Encampment Resolution Funding Program is a critical resource, enabling communities to develop effective strategies to resolve encampments and create pathways to permanent housing. With this funding, we aim to improve the quality of life for individuals experiencing homelessness

and contribute to the broader efforts to end homelessness in California.

Beware of Unhealthy Air Following July 4th Fireworks

Continued from page 1

where a professional show was held and personal use of “Safe and Sane” fireworks is allowed, indicated the level of fine particles came close to the unhealthy level for sensitive groups. In 2021, the Thousand Oaks monitor recorded similar readings on the morning of July 5.

Fireworks emit high levels of fine particulate matter including soot and ash that can cause serious health effects. Toxic metals like strontium and barium produce the vibrant

colors of fireworks. Illegal fireworks are known to contain additional toxic metals such as lead.

Particulate matter with a diameter of 2.5 micrometers or less, or PM2.5, can invade the bloodstream, get deep into the lungs and increase the risk of heart attack and stroke. It can irritate throats, lungs and sinuses and cause headaches, fatigue, coughing, wheezing, shortness of breath, asthma attacks and dry, watery eyes. Children, older adults

and people with existing respiratory conditions are the most at risk.

When air quality reaches an unhealthy level, you should:

Stay indoors as much as possible, preferably in a “clean room” with an indoor air filtration device where you can avoid cooking or burning candles.

Close all windows and doors that lead outside unless it is extremely hot.
