Subject: Final Draft Bedford-Coldwater Groundwater Sustainability Plan/Save the Date
Date: Monday, June 7, 2021 9:36:41 AM
Attachments: [image001.png](#)

Stakeholders in the Bedford-Coldwater Groundwater Sustainability Plan,

The draft Groundwater Sustainability Plan (GSP) Bedford-Coldwater Subbasin has been completed in its entirety and is available for review and comment. As stakeholders in the basin, we invite your input, comments, and/or questions on this final draft. The completed document is available for public viewing on our website [HERE](#).

For those interested, an online public meeting to discuss the GSP is planned for **July 15 at 6:00 pm**, so please save the date. In the meantime, your input on the draft GSP can be directed to victor@hhwaterresources.com via email or 626-840-3592 via phone. We anticipate that after a 90-day public review period and incorporation of comments, the GSP will be formally adopted by the Groundwater Sustainability Authority Board of Directors.

Thank you for your continued interest in the Bedford Coldwater Groundwater Sustainability Authority!

Victor Harris
BCGSA Administrator
