Subject: Notice of Public Hearings on Adoption of the South American Subbasin Groundwater Sustainability Plan

The five Groundwater Sustainability Agencies (GSAs) within the South American Subbasin, as required by the Sustainable Groundwater Management Act (SGMA), have prepared a draft Groundwater Sustainability Plan (GSP) for the South American Subbasin.

Water Code Section 10728.4. reads in part:

A groundwater sustainability agency may adopt or amend a groundwater sustainability plan after a public hearing, held at least 90 days after providing notice to a city or county within the area of the proposed plan or amendment. The groundwater sustainability agency shall review and consider comments from any city or county that receives notice pursuant to this section and shall consult with a city or county that requests consultation within 30 days of receipt of the notice.

This notice starts a 90-day notification period for a city or county to inform the South American Subbasin GSAs of its intent to consult on the GSP. Pursuant to SGMA, representatives of the South American Subbasin GSAs are available to provide consultation with and receive comments on the GSP from your organization, if a consultation is requested. Cities and counties must request a consultation within 30 calendar days following receipt of this Notice. Comments may also be provided in writing. To review the plan, visit the South American Subbasin GSP website, sasbgroundwater.org. Please note that the cities of Elk Grove, Folsom, Sacramento and Rancho Cordova have been directly involved in development of the GSP through their membership on the Board of the Sacramento Central Groundwater Authority (SCGA). The County of Sacramento is both a SCGA member and an independent GSA in the subbasin.

PLEASE TAKE NOTICE that each of the South American Subbasin GSAs will hold Public Hearings to consider adopting the South American Subbasin GSP. Attached is a complete list of the GSAs contacts and websites to check for the dates and locations of the public hearings for adoption of the GSP.

Consultations may be arranged, or questions answered by contacting John Woodling, South American Subbasin Plan Manager at jwoodling@geiconsultants.com or at (916) 631-4563.

Thank you,
