Los Angeles, CA 90012

RE: Notice of Public Hearing to Adopt Groundwater Sustainability Plan for the
Santa Clara River Valley East Subbasin

To whom it may concern:

This letter provides notice that the Santa Clarita Valley Groundwater Sustainability Agency (Agency) intends to hold a public hearing on December 15, 2021, to consider adoption of Groundwater Sustainability Plan (GSP) for the above-referenced groundwater basin. Pursuant to the Sustainable Groundwater Management Act (SGMA), Section 10728.4, please let us know if you would like consultation on the GSP within 30 days of receipt of this notice.

The Agency released the draft of the GSP for a 60-day comment period starting August 16, 2021. The public comment period will end on October 15, 2021. The Draft GSP is available at www.scvgsa.org. Please provide any comments before the close of the public comment period on October 15, 2021.

The Agency recognizes that coordination with the County of Los Angeles is important to implementing the GSP and for sustainable management of the groundwater basin. Please contact me at rviergutz@scvwa.org or (661) 513-1281 if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Rick Viergutz".

Rick Viergutz
Principal Water Resources Planner
