

NOTICE OF PUBLIC HEARING CONCERNING ADOPTION OF
YOLO SUBBASIN GROUNDWATER SUSTAINABILITY PLAN

The Yolo Subbasin Groundwater Agency (YSGA) will hold a public hearing on January 24, 2022, commencing virtually at 3:00 p.m. via GoToMeeting from your computer, tablet, or smartphone or from your telephone at <https://global.gotomeeting.com/join/908539029> or +1 (224) 501-3412 (Access Code: 908-539-029), respectively (pursuant to AB 361). The purpose of the hearing will be to receive public comments on whether the YSGA should adopt the Final Yolo Subbasin Groundwater Sustainability Plan (GSP), pursuant to the Sustainable Groundwater Management Act of 2014 (Assembly Bill No. 1739, Senate Bill No. 1168, and Senate Bill No. 1319).

On June 19, 2017 the YSGA Board of Directors approved a resolution of intent (Resolution No. 2017-3) that formally established the YSGA as the Groundwater Sustainability Agency for the Yolo Subbasin and began the process of GSP preparation. The YSGA has solicited comments and input on the draft GSP.

Summary: The GSP contains information describing the geographic area of the plan, maps, description of current groundwater conditions, groundwater and surface water budgets, Sustainable Management Criteria (SMCs), and proposed projects for the Yolo Subbasin. The SMCs define conditions for sustainability that are used to guide groundwater management in the Yolo Subbasin. Quantitative SMCs are included for groundwater levels, groundwater storage, groundwater quality, land subsidence, and depletion of interconnected surface waters.

The proposed GSP is available for public inspection online at www.yologroundwater.org and in person at the Yolo County Flood Control and Water Conservation District (YCFC&WCD) office, 34274 State Hwy. 16, Woodland, California. Copies of the plan are available at the YCFC&WCD office for the cost of reproduction.

The public is invited to attend and provide protests and comments either before the Board hearing or at the Board hearing. The Board will consider all protests to adoption of the GSP submitted at any time prior to the conclusion of the hearing. Written protests can be filed prior to the Board hearing via email to info@yolosga.org; at 34274 State Hwy 16, Woodland, California; or prior to the conclusion of the Board hearing. The YSGA encourages potential protests be brought to the YSGA's attention prior to the Board hearing to expedite the resolution of such protests. If you would like more information about the proposed GSP, please contact Kristin Sicke, Executive Officer at (530) 662-0265 or email info@yolosga.org.

December 29, 2021

Kristin Sicke, Executive Officer, Yolo Subbasin Groundwater Agency
