RE: Yolo Subbasin Groundwater Agency
Notice Pursuant to Water Code Section 10728.4

To Whom It May Concern:

In accordance with California Water Code section 10728.4 (§10728.4), the YSGA and its member agencies and affiliated parties, including each of the cities (City of Davis, City of West Sacramento, City of Winters, City of Woodland) and County of Yolo have had continuous written notice of, active participation in, and direct input on the YSGA's development and adoption of the Yolo Subbasin Groundwater Sustainability Plan (GSP) since the YSGA's formation.

The YSGA was formed to be the Groundwater Sustainability Agency (GSA) for the entire Yolo Subbasin by, and to this day remains governed by, all of the cities and County of Yolo subject to §10728.4 (and all other member agencies and affiliated parties). This formation was accomplished pursuant to a Joint Exercise of Powers Agreement (JPA) dated June 19, 2017, provided as Appendix A to the GSP.

Additionally, each of the cities and county subject to §10728.4 are voting general members of the YSGA and had the opportunity to comment, vote on, and adopt the GSP at the YSGA's special Board of Directors meeting on January 24, 2022. It is also worth noting that the JPA requires a two-thirds vote on the adoption of the GSP and 25 of the 26 member agencies and affiliated parties were in attendance and voted in favor of adopting the GSP. As such the notice and comment requirements of §10728.4 have been met and exceeded by the YSGA in the adoption of the Yolo Subbasin GSP.

Feel free to contact me if there are any questions.

Thank you,

Kristin Sicke
Executive Officer
