Subject: Kick-off Meeting for the Arlington Basin Groundwater Sustainability Plan

Dear Mr. Smith:

Pursuant to the Sustainable Groundwater Management Act (SGMA), on April 17, 2017, the Board of Directors for Western Municipal Water District (Western) held a public hearing and elected to become the Groundwater Sustainability Agency (GSA) for the unadjudicated portion of the Riverside-Arlington Subbasin (Arlington Basin).

SGMA seeks to ensure all of California's groundwater basins are managed sustainably. It gives qualified Local Agencies the authority to adopt Groundwater Sustainability Plans (GSP) that are tailored to the resources and needs of their communities. GSP's must be approved by the Department of Water Resources by June 30, 2022.

Prior to the passage of SGMA legislation, Western's Board of Directors adopted the *Arlington Basin Groundwater Management Plan* in September 2012. Although the existing plan provides a framework to operate and manage the Arlington Basin in a sustainable manner, it is not fully compatible with the new SGMA requirements and will be updated as required by SGMA, following additional stakeholder input.

On behalf of Western, I want to invite you and your colleagues to attend our kick-off meeting as we begin to discuss the details behind SGMA, the draft sections of the GSP, schedules, and community involvement.

Date: Monday, April 1, 2019
Time: 5:30–7:00 pm
Place: Western Municipal Water District
Address: 14205 Meridian Parkway, Riverside, CA 92518

All stakeholder meetings for the GSP are open to the public. Please invite staff and let members of the community know about this opportunity. We welcome all participation in planning for the sustainability of the Arlington Basin. All meeting materials can be found on Western's website at www.wmwd.com. We hope to see you on April 1st.

Sincerely,

Karly Gaynor
Water Planning and Policy Manager
