RE: Notice of Intent to Amend and/or Supplement the Groundwater Sustainability Plan

Dear Mr. Jimenez:

The Fresno County Management Areas A and B Groundwater Sustainability Agencies (GSA's), hereby providing notice pursuant to California Water Code Section 10728.4 its intent to consider for adoption an amended and/or supplemented Groundwater Sustainability Plan (GSP) no earlier than 90-days upon your receipt of this notice. Within 30 calendar days of receiving this notice, the County of Fresno may submit to the GSA a request to consult on the GSP. A request for consultation received after 30 calendar days will not be considered.

The GSA approved the GSP in January 2020 and submitted the GSP to the Department of Water Resources (DWR) in January 2020. After evaluating the GSP, on January 21, 2022, DWR informed the GSA that the GSP is "incomplete". The GSA is working in cooperation with the other GSA's in the region to amend and/or supplement the GSP to the fully address the deficiencies identified by DWR.

The GSP, as may be amended and/or supplemented, will govern and the GSA will administer sustainable groundwater management actions within the Basin (Groundwater Basin: 5-022.07).
